

Hello!

We help growing businesses achieve their goals with IT in increasingly challenging times.

As business adapts to regulatory changes such as GDPR, our changing relationship with Europe, the ever-growing need to conduct 'digital business' and more, we passionately believe that 'IT can be better' by...

- working with you to **Analyse** your current IT, understanding your investments, services and risks.
- helping you **Plan** an IT Strategy that increases value, reduces cost and aligns your technology to your critical activities.
- managing projects to **Deliver** the changes that will realise the strategy and create lasting value in your business.

To talk about how IT strategy can help your business grow please get in touch

IT shouldn't be painful

Analyse. Plan. Deliver.

Analyse

Mapping the line from technology to business to customer

ertgo.co.uk/analyse

What are your critical business activities?
What is the IT that makes them possible?
What happens if the IT changes or fails?

The Analyse services map this out and proposes ways to create these benefits:

- **fewer IT issues**
- **better investment decisions**
- **lower total cost**

Our advice is always:

- independent
- expert
- focused on your business

Growing your business is your goal.
Ensuring your IT helps you is ours.

hello@eastridgetechnology.co.uk

Plan

Supporting your growth by maximising the value of your IT

ertgo.co.uk/plan

As you grow your business, is your technology going to help that journey? The Plan services set a strategy that links with and supports your business and saves you money.

Independent advice and partnership

IT for Growing Businesses will help you solve business problems and then fit your IT to the solution.

Because we are independent, you know that our advice and services are what's best for your business - no software, just solutions.

IT shouldn't be painful

Deliver

Delivering your projects, translating the jargon so you stay in control

ertgo.co.uk/deliver

Every business project is a challenge. IT projects come with extra complications.

Deliver is designed to take the worry off your shoulders so you can focus on running your business. We will deliver:

- **agreed project and business outcomes**
- **strict progress reporting**
- **alignment with your budget**

For projects from startups to multinational business and technology changes

Successful IT projects,
jargon free and independent
